

Dear Dual Enrollment Students and Families,

Welcome to Northern Virginia Community College's Contract Dual Enrollment Program! Through this program, you will earn both high school and college credit, allowing you to fulfill your high school graduation requirements while accelerating your college education.

This unique opportunity is made possible through a contract between your school district and NOVA. We're excited to offer these courses at your high school **free of charge** under the terms of this agreement. This means there is **no tuition cost** for any dual enrollment course offered at your high school as part of the contract.

As a dual enrollment (DE) student, you have access to the same resources and privileges as all NOVA students. This includes:

- Full use of NOVA's libraries and online resources
- Student services and activities
- Free tutoring for your DE courses
- And much more!

You're also eligible to receive a NOVA student ID card, which provides access to these benefits.

Please keep in mind that you are now creating an **official college transcript**. Your enrollment and final grades will become part of your **permanent academic record** and will be included in any future college or graduate school applications. You can access your records through your **myNOVA** account, using the login information you received when you applied. We encourage you to check your account regularly for updates and to monitor your academic progress.

It's important to understand that NOVA courses follow a **college semester schedule**, which may differ from your high school calendar. Each semester includes **drop and withdrawal deadlines**—these dates are listed in your course syllabus. Changes to your enrollment, such as dropping or withdrawing from a course, can impact your academic record. Always speak with your instructor and/or high school counselor before making any decisions about your course enrollment.

We're thrilled to welcome you to NOVA and look forward to a successful year ahead!

Sincerely,
Office of Dual Enrollment
Northern Virginia Community College

Northern Virginia Community College Dual Enrollment Student Information and Policies

2026-2027

- **Enrollment:** All students must meet the enrollment criteria and submit a complete request to be enrolled in the course. No student will be enrolled without completing the online application to NOVA, meeting the placement requirements, meeting course pre-requisites, and submitting a completed Dual Enrollment Portal request. No student will be enrolled at NOVA after the enrollment deadline.
 - Students should verify their enrollment by logging into their myNOVA account. If a student believes they should be enrolled but are not, they should notify the DE Instructor or high school counselor immediately.
- **Class Schedule:** Although the high school course meets continuously throughout the year, some Dual Enrollment (DE) courses are two consecutive NOVA courses during the fall and spring semester (e.g., English 12 is ENG 111 and ENG 112). Please note: math courses (and some science courses) require students to earn a grade of C or higher to progress to the second semester of the college course (ex. MTH 161, MTH 162). For other courses, a passing grade (D or higher) earned in the first semester is the pre-requisite for the second semester course. To utilize a course to fulfill a graduation requirement or transfer to another college or university, a student must earn a C or higher.
- **Drops and Withdrawals**
 - Dropping a Class

Students who are not proving successful in a dual enrollment course can be dropped from the course by the listed deadline each semester. Please refer to your specific class's syllabus for the deadline. These dates can also be found in myNOVA. A class dropped before the drop date will not be reflected on the NOVA transcript. With the student's agreement, the DE Instructor or High School Counselor will *notify the NOVA Dual Enrollment Coordinator of the request for processing*. Students should log into their myNOVA account to verify that the course has been dropped.
 - Withdrawing from a Class

Students who missed the drop deadline may also be withdrawn from the NOVA course by the listed deadline each semester. A withdrawal places a "W" on the student's college transcript but does not impact the college GPA.

- Dual enrolled students are responsible for requesting to withdraw through the Dual Enrollment Portal by the withdrawal deadline listed on their syllabus.
- Dual enrolled students will use their myNOVA credentials to access the Dual Enrollment Portal withdrawal request and will select one or more enrolled DE classes to withdraw.
- The withdrawal request is then routed to the assigned DE instructor and the Office of Dual Enrollment for review and approval.
- After the semester withdrawal date, only students experiencing a documented, mitigating circumstance can appeal to be withdrawn. In these situations, a student can complete the [Late Withdrawal for Mitigating Circumstances](#) to NOVA for consideration. Should the student not meet one of the criteria to appeal, they will be assigned the grade they earned in the course.
- Please note: Too many “W”s on a college transcript can impact the student’s ability to secure financial aid in the future.

• Student Account and Academic Record

- Each student who applies to NOVA is given a NOVA ID number and myNOVA username. This gives the student access to their myNOVA account which includes their academic record and their NOVA email. Students will need to know this information to access their academic record and request transcripts. Students attending NOVA after graduation will continue to use this student ID number and username. Students can find instructions on how to reset their myNOVA password by going to the following link.

<https://www.nvcc.edu/novaconnect/students/tuts/index.html>

- When students apply, holds are placed on their account to ensure they follow NOVA procedures before enrolling. As high school students, they will not be able to enroll in courses independently. All enrollments must be submitted through the required registration process. When students graduate, they can work with NOVA Student Services to remove the holds and be placed in an academic program.
- Students who take dual enrollment courses are establishing an official college transcript, which must be shared with any other college or graduate school to which they may later apply.

After high school graduation, students planning to continue at NOVA should work with a NOVA advisor who will support you in determining what additional courses should be taken to earn a NOVA certificate or degree.

- Students may not take the same dual enrollment course twice at their high school, although they may choose to retake a dual enrollment course at a NOVA campus or through NOVA Online if they would like to improve their final grade. If the completed course was taken from Fall 2021 and beyond, the higher of the two grades will be counted in calculating the cumulative and curriculum GPA and for satisfying curricular requirements.
- If applying to or attending another college/university besides NOVA, students will need to have their official transcripts sent to that college/university to be evaluated. Students can find more information about this at www.nvcc.edu/transcripts/. Please note that high schools cannot send NOVA transcripts to other colleges.
- The Family Educational Rights and Privacy Act (FERPA) mandates that college students – including minors – have a right of privacy regarding their college records. In general, that means that NOVA may not directly communicate educational records (including grades) to parents. For more information on FERPA, please see:
NOVA's Policy: <https://www.nvcc.edu/policies/files/613-FERPA.pdf>
Department of Education guidance: <https://studentprivacy.ed.gov/>

• Student Resources

Dual enrollment students taking courses within their high schools have access to NOVA's Academic and Student Support Services and Student Life activities.

Library Resources

As a NOVA dual enrollment student, you can use the NOVA library system. This includes each of the campus libraries, but also the online resources associated with the library system. For more information, see the library website: <http://libguides.nvcc.edu/dual-enrollment>

Tutoring

Dual enrollment students have access to free tutoring services for their NOVA DE classes online and on each campus. Please see the tutoring website for hours and policies: <https://www.nvcc.edu/student-resources/tutoring/index.html>

Student Life

Dual enrollment students can take part in many of the programs, clubs and activities that Student Life provides. Please see the Student Life website for more information:

<https://www.nvcc.edu/student-life/index.html>

NOVACard

NOVACard is the official identification card of Northern Virginia Community College. All NOVA students are encouraged to get a free NOVACard in order to access these benefits and services: <http://nvcc.edu/novacard/index.html>. Students must first be enrolled in the DE class prior to obtaining a NOVACard.

Accommodations and Accessibility Services

Information on NOVA's Accommodations and Accessibility Services (AAS), including how to apply and reach an Accommodations and Accessibility Services Counselor, can be found here:

<https://www.nvcc.edu/student-resources/accessibility/index.html>

Students must submit the online application for NOVA's AAS. A student with a 504 plan or IEP at their high school will still need to apply with NOVA's AAS – those plans do not automatically carry over to a Dual Enrollment course. If accommodations are agreed upon, students will receive a Memorandum of Accommodation (MOA) from AAS and must provide it to the DE Instructor. Most correspondence with a NOVA AAS Counselor will occur in the student's NOVA email account. All information is kept confidential and may increase your chances of success in the academic setting.
