

ITD110 - Web Page Design I
Reading Quiz - "HTML Text Tags Part 2"
2025-2026

The maximum possible score on this quiz is 5 points.
In the gradebook, it will be weighted 5 points.

Section 1. Match the HTML tag to its meaning (1 point)

- | | |
|--------------|------------------------------------|
| _____ hr | (a) draws a line under the text |
| _____ u | (b) highlights the text |
| _____ mark | (c) bold |
| _____ strong | (d) draws a line through the text |
| _____ del | (e) draws a line across the screen |

Multiple Choice Questions: 1 point each

Each of the following questions might have multiple answers. There are four total correct answers. Select any or all answers that are correct.

- Which of these correctly explains when you might use an HTML tag.
 - Use the `<pre>` tag to demonstrate something that must be done in sequence before something else
 - Use the `<kbd>` tag to show which keys someone should press on their keyboard
 - Use the `<code>` tag to link to your online repository
 - Use the `<samp>` tag to show output from a computer program
- Which of these is true about creating lists in HTML?
 - To create a bulleted list, the text of each list item must start with a * symbol
 - You can mix bulleted items and numbered items in a single list
 - To display nested lists, place a `<ul>` or `<ol>` inside an `<li>` element
 - Each list can contain an unlimited number of items
